### IDEAL GLUES TO USE

### ASSEMBLY

#### LINE UP YOUR PARTS

BOX

LID

When lining up your parts, make sure that the **Frame Box Top** is on top, & it's smaller than the bottom

#### BUILDING FRAME:

- Step 1:** Glue/staple the **Frame Box Top** to the top part of the **Back of Box**.  
**Step 2:** Glue/staple 1 **Outside Side** piece to the left side of the **Back of Box**

- Step 3:** Repeat Steps 1 & 2 on the other side attaching the right side & bottom of box.

Inspect your box & make sure the **Frame Box Top** does NOT line up with the side pieces.

**Step 4:** Glue the *Inside Side* piece to the inside of the *Outside Side*. **\*NOTE\*** Make sure that this sits tight on the **Back of Box** & is below the **Frame Box Top lip!** Do this on both sides.

**Step 5:** Line up & glue the *Long Lid Frame* to the *Frame Box Bottom*

**Step 6:** Line up & glue both the *Short Lid Frames* to the *Outside Sides*  
**\*Do not attach the Long Lid Frame to the Frame Box Top**  
**Allow this to dry before doing the lid assembly.**

**BUILDING LID:**

**Step 1:** Take the *Sliding Lid* & slide it into the box between the *Short Lid Frame* & the *Inside Side* pieces.

**Step 2:** Slide the lid all the way down, closing the box.

**Step 3:** Leaving about an inch on each side, glue the *Top Lid Frame* to the top of the *Sliding Lid*, aligning it to the *Short Lid Frames* to make a perfect rectangle.

**\*Make sure you do not use excessive glue or you could glue your box closed!**

Personalize, by painting the box & all the shapes.... line up & space the "H", "M" & "E" letters out across your lid & once satisfied, go ahead & glue these letters down to the lid.

Take your Velcro, attach it to your lid & shapes! DONE!

**CONGRATS & ENJOY YOUR NEW CREATION!!!**
